Assignment :

1. Create Github account.
2. Create a local repository on your system named <Your Github UserName>.github.io
3. Add an index.html file in that repo and then write a brief description about yourself in that file.

(Please make sure that you commit at regular intervals while editing index.html file)

Example : Index.html

```html
<!DOCTYPE html>
<html>
<title>Git Assignment Class 1</title>
<body>

<h1> This is first assignment on Git !</h1>
<p> Git is love </p>
<p> Learn html too ! - W3School </p>

</body>
</html>
```
